About Me

I am an IT student passionate about cloud computing and AI, skilled in AWS, Python, and database management. I developed a machine learning-based chatbot that enhanced user interaction. My goal is to become a solutions architect, delivering efficient technical solutions for businesses.

WORK EXPERIENCE

Singapore | June 2021 - June 2023

PIN PRESS PTE LTD

Printing and Customer Support Specialist

- Assisted the printing team in processing staff goods packaging orders, delivering high-quality services to corporate and individual clients on time.
- Met with clients quarterly to update service needs or renew contracts, increasing renewal rate by approximately 10%.
- Trained and mentored 3 junior sales agents, sharing communication and sales strategies to boost team performance.
- Coordinated pre-press and post-press processes with design teams, ensuring products met client specifications and reducing rework.

FINAL YEAR PROJECTS

Robotic Arm Grabbing Project (2025)

Developed a robotic arm system using Python and OpenCV for object recognition, enabling automatic grabbing and placement of objects.

PROJECT

Project Experience

Coal Fire Prediction and Monitoring System

- Goal: Built a system with cameras and thermal imaging to monitor and predict coal fires using YOLO.
- My Work: Helped develop a Django website and added an AI assistant to explain fire situations to users.
- Result: Created an easy-to-use website that improved fire monitoring.

Image Anti-Counterfeiting System

- Goal: Made a system with YOLO and Google API to check fake images and find similar images or places.
- My Work: Worked on Django website and used Google RAG to show image results.
- Result: System finds fake images fast and gives accurate information.

OTHM LEVEL 4 DIPLOMA IN INFORMATION TECHNOLOGY

This is to certify that

ROY YANG SISONG

has successfully completed a regulated qualification at

NEW ERA INSTITUTE OF VOCATIONAL AND CONTINUING EDUCATION

Awarded on 12 August 2025

European Qualifications Framework (EQF) Level 5

LRN: 230715021 | 040801 | DC2110614 | QAN: 610/1191/5

This certificate should be read in conjunction with the accompanying transcript
